### Another Great Battle;

This morning we have a telegraphic synopsis of the news by the *Adelaide*, and the intelligence that another great battle had been fought between the Allies and the Austrians on the 24th ult., resulting as before, in the success of the former. The despatches are not very explicit, but they indicate that the French and Sardinians have achieved another brilliant victory. The exact location of the battle, and the number engaged in it are not given, but according to the previous advices in regard to the positions of the belligerent armies, it must have occurred near Mantua, between that city and Peschiera, East of the river Mincio.

The despatches of three days previous left the French army advancing upon Mantua, and the Sardinians upon Peschiera. The latter forms the North-Western fortress, and the former the Southern angle of the quadrilateral defence, into which the Austrians had retreated, but it is scarcely possible that either of these important strongholds could have been taken without mention being made of the fact in the first despatch. The battle lasted from 4 in the morning until 8 P. M., and from the positions of the armies must have been a sanguinary conflict. The details of the news may throw some more light on the subject, but we will probably have to wait for another arrival for definite information respecting it.

### The Next Great Battle.

*By the Steamer Vanderbilt.*

The expected battle on the Mincio is the topic which now engrosses universal attention. The *Nord*, of June 21st says:

"We are on the eve of great events. The two armies are face to face. All the corps of the Austrian army are concentrating upon the line of the Mincio. The provinces of the empire have been denuded of troops, and the last columns are arriving by forced marches upon the scene of the contest. The Austrian army has chosen its position: it occupies a line on the other side of the Chiese, the centre of which rests upon the heights of Castiglione, before Peschiera; the right wing extends to Lonato; the left to Castel-Goffredo. On the 17th the Emperor Francis Joseph, reviewed the two *corps d'armee* encamped at Lonato.

The allied armies follow the enemy step by step, combining their movements. It is possible that the pivot of their operations will be the bourg of Monte Chiaro, evacuated precipitately by the Austrian rear guard. A French corps is advancing by forced marches in the Vattelline, where the Austrians made a feint of descending from Formio to threaten the rear of the allied armies.

The ground chosen by the Austrians for accepting battle has been well studied by their generals; these positions served habitually for the grand manœuvres of the autumn. The latter fact is not ignored at the French head-quarters, and precautions have been taken accordingly.

The game, then, will be played with equal chances—a terrible game—without precedent in the military history of modern times."

The *Nord* also says:

"The day before yesterday Prince Napoleon was to enter Modena. By this time military operations have commenced in the Adriatic upon the coasts of Dalmatia. It is stated that the Austrians, while the French army marches to the Mincio, wish to direct a body of 50,000 men by the Tyrol upon Milan, but it is not very likely that the Austrian Generals will try one of those bold manœuvres to which they are so little accustomed. In any case, precautions have been taken."

*Correspondence of the London Times.*

PARIS, Monday, June 20—6 P. M.

We are in daily expectation of news of a battle, which, if lost by the Austrians, may hasten the solution of the great question at issue, and dissipate the delusion that they can continue to hold Lombardy as before. The famous fortresses will, we are told, not long stand out against the rifled cannon; at least, such is the opinion expressed by persons who, were not their national feelings enlisted, would be very good authority on such a question. Should a battle, then, be lost by the Austrians on the Mincio, it is thought or hoped that the Neutral Powers may try to bring about an armistice, with a view to an ulterior arrangement. There are various versions, or rather conjectures, as to the nature of this arrangement. One is that Austria will be induced to abandon her claims to Lombardy, which will be annexed to Piedmont, and that Venice will be declared a free city, with a portion of territory as far as the limits of Lombardy. In this manner the north of Italy would be rescued from the Austrians from the Mediterranean to the Adriatic.—There are various other plans spoken of, perhaps with no greater foundation. The attention of everybody is fixed on the expected battle of the Mincio—the Mincio, which is regarded as the Rubicon of the Modern Cæsar.

*From the Paris Siecle, June 19th.*

"From Peschiera to Mantua the course of the Mincio is about six leagues as the crow flies; in that limited space the passage must be forced. To attempt this operation there are certain points naturally indicated by their position. In fact, the principal condition to secure the *debouche* of any bridge thrown over a river is to drive the enemy away from the opposite bank. It is not difficult to imagine that if a spot is found in the course of the river where, on the one hand, the stream forms an angle towards the attacking party, and, on the other, the ground is high enough to command the bank occupied by the enemy, it would be a great advantage to attempt the passage at such a point, because a plunging fire could then be concentrated on the enemy placed in the middle of a semi-circle of batteries. Now, the course of the Mincio presents to an army wishing to force its passage, from the Milan side, only two points combining these advantages—at Mozambano and Volta. On these two points the stream makes an elbow, pointing to the west, and the ground on the right bank is considerably higher than on the other. These two points were therefore chosen in the wars of the Revolution, 1796 and 1800, and also in the campaign of 1848, to force the passage of the Mincio.—Moreover, the possession of two fortresses like Peschiera and Mantua on so short a line, renders its defence easier, for the enemy have their wings perfectly supported, and can debouch unexpectedly from either of those fortresses.

However, history teaches us that for an army well commanded the passage of the Mincio is almost a certainty. The Austrians could not prevent Bonaparte from crossing it in 1796; nor Brune in 1800, notwithstanding the sanguinary battle fought by Bellegardo—nor the Piedmontese army in 1848, which forced the river at three points—at Goeto, Mozambano and Borghetto. The passage once effected, the conquerors are in the centre of the quadrelateral, and of the places which form its four corners—Peschiera, Mantua, Lenago and Verona—and being so will have most probably to fight a pitched battle, to force the enemy back.

IMPERIAL MOVEMENTS.

The Brussels *Nord* says: We have reason to contradict the reports which have been current, relative to the approaching return of the Emperor to Paris. We understand that such a thing has never been thought of. His Majesty is actively occupied with the plans of the new campaign and the concentration of the troops. In a few days the blanks in all the regiments will have been filled up. Prince Napoleon, whose attention has been, up to the present time, absorbed by the organization of the Fifth *corps d'armee* under his command, is impatient to distinguish himself in the second series of operations which are about to commence.

### Oshkosh Items.

The Oshkosh *Courier*, of July 1st, contains the following items of information:

LOGS COMING DOWN.—Logs are coming down the river in huge quantities. Yesterday we saw a raft something less than half a mile long drawing its slow length through the draw-bridge. The lumbermen are anticipating good times after the growing crop has been harvested and sold, and the railroad completed from here to Janesville.

OSHKOSH AND GREEN BAY.—We understand that the proprietor of the steamer *Pearl* has agreed to place her on the line between here and Green Bay, and that she will hereafter, and for the balance of the season, make daily trips on the route. The *Pearl* is one of the best boats afloat hereabouts, and being an Oshkosh craft will of course command the patronage of our business men in preference to any other.

SCOUNDRELISM.—An act of malicious mischief was perpetrated a few days ago at the Brewery establishment of Major Andrea.—His lager beer vault was broken open, and a large portion of his stock for summer use destroyed. Some of the large casks were emptied, and salt put into others in quantity sufficient to entirely spoil the contents. The loss to Major Andrea by this sneaking piece of villainy is not far from a thousand dollars.

CHICAGO & NORTHWESTERN RAILROAD.—We are gratified to be able to state on the authority of Mr. Campbell, Engineer of the Northern Division of the Chicago and Northwestern Railroad, that the grading on the line between the La Crosse junction and Watertown, will be all finished this week. The iron, ties, and other materials for the track, have been procured and will be on the ground without any delay. By the first of August the Company expect to run regular trains from here to Watertown. There seems to be no reason to doubt but that the entire gap between the junction and Janesville will be closed by the middle of October, and that our railroad connection with Chicago will then be direct and unbroken.

THE CROPS.—The indications of an abundant crop still continue unchanged in this vicinity. The frequent and timely rains of the last week have been vastly beneficial, especially to grass and corn, which had begun to be somewhat affected by the dry weather. We are told by those who ought to know, that more land, by one-third, is under cultivation in this County, this year, than ever before. At present there is every reason to believe that Winnebago County will have a large surplus of grain and produce to dispose of after harvest.

CHICAGO PRODUCE TRADE.—The receipts of produce during the past week were: 13,831 bbls flour; 55,884 bus wheat; 136,001 bus corn; 9,750 bus oats; 710 bus rye; 5,050 bus barley.

The shipments during the same period were: 12,000 bbls flour; 54,891 bus wheat; 74,926 bus corn; 23,513 bus oats; 96 bus rye; 40 bus barley.

The total receipts and shipments since 1st January, compared with the same last year, are as follows:

| | Receipts. | | Shipments. | |
|---|---|---|---|---|
| | 1859. | 1858. | 1859. | 1859. |
| Flour, bbls.. | 204,080 | 228,493 | 171,571 | 182,833 |
| Wheat, bus.. | 1,865,862 | 4,093,891 | 1,007,579 | 4,397,050 |
| Corn, bus .. | 2,513,717 | 3,944,155 | 1,583,064 | 2,276,251 |
| Oats, bus.... | 337,320 | 1,212,498 | 257,079 | 956,500 |
| Rye, bus ... | 26,584 | 23,850 | 2,562 | 7,569 |
| Barley, bus.. | 119,296 | 161,950 | 19,141 | 60,591 |

The following table shows the flour and grain in store in this city, on the 2d inst., compared with the amount in store at the same period in 1857 and 1858:

| | July 2, 1859. | July 2, 1858. |
|---|---|---|
| Flour, bbls | 7,874 | 4,445 |
| Wheat, Spring, bus | 250,584 | 721,151 |
| " Red, bus | 96,209 | 6,982 |
| " White,bus | 1,652 | 980 |
| Corn, bus | 472,121 | 453,078 |
| Oats, bus | 116,551 | 112,155 |
| Rye, bus | 222 | 1,916 |
| Barley, bus | 19,552 | 14,784 |

Flour during the week has been dull and drooping. Wheat has been less active, and prices have not changed materially. Corn has been firm, and advanced during the week 3a4c; but the advance has been nearly lost during the past two days. Oats have been quiet and unchanged. Nothing doing in cereals. Provisions inactive. Wool advanced 2c, with receipts of over 30,000 lbs during the week.—*Chicago Tribune, July 5th.*

### The American Dictionary.

We are indebted to Messrs. TERRY & CLEAVER, 167 East Water Street, for a copy of the Pictorial Edition of WEBSTER'S Unabridged Dictionary. It is a very handsome, as well as a very useful work. Among many favorable notices which it has received from the New York, Philadelphia and Boston Press, the following from the Philadelphia Evening *Bulletin*, is one of the most appropriate:

"An examination of proofs has convinced us that this is by far the most perfect form which any Dictionary has ever assumed. All the ingenuity ever applied to language will not give the idea of a mechanical device which a simple cut will do. It is almost impossible for the most intelligent mind to get a clear idea of metope, a crotchet, a hip, or queen post roof, or anything else in architecture, from a definition, while a small engraving brings it up at once.

The illustrations of the new edition are copious and truly excellent, in full keeping with the superiority of a great standard work. Several thousand new words have also been added to it, so that is not possible to imagine a more perfect work of the kind. For reference in schools, and for the young it is possessed of a very peculiar value."

WEBSTER'S Dictionary is adopted as the standard in all our Public Schools, and should also be in all Select Schools, and private circles and libraries. The present edition is published by GEORGE & CHARLES MERRIAM, of Springfield, Massachusetts, and is an excellent sample of their handicraft.—Copies may be had at the Bookstore of Messrs. TERRY & CLEAVER, 168 East Water Street.

THE FIREMEN ON THE FOURTH.—The *Wisconsin* censures the firemen severely for claiming the right of the Procession on the Fourth. Our opinion was and is, that the right should have been assigned to the military, as the proper escort on such occasions. But rather than have any difficulty on the subject, it was agreed that the firemen should lead off, and that a given point in the line of march, the military should take the right.—We do not think, therefore, that the firemen should be blamed for taking the position assigned to them, even though that position belonged, of right, to the military.

THE TRAVELING PUBLIC—who may be called by business or pleasure to purchase tickets for the "Milwaukee & Chicago," Pittsburgh, Fort Wayne & Chicago, Michigan Central, or Michigan Southern R. R., may expedite their purchases by transacting all preliminary business with H. E. SAWYER, the gentlemanly Agent, located at the corner of Wisconsin and East Water streets.—C. P. PHILLIPS, (Agent at the Hotels and cars,) and H. E. SAWYER, have long been known to the community as energetic and thorough business men, and anything entrusted to their supervision is attended to with promptitude and dispatch

THE SALE of furniture and dry goods comes off at C. WALL's Auction Room, No. 146 East Water street this morning at 10 o'clock.

A BAND OF MINSTRELS, one of whom is a female, perform at Market Hall to-night.

### THE RE-UNION.

I would not for Golconda's wealth,
Lose such an hour as *this*;
When friends long parted, meet again,
Exchange the greeting kiss;
With rapture gaze we for a time,
Too much of joy to speak,
And struggling with our feelings long,
Can only gaze and weep.

Then having calm'd our heartfelt joy,
On that loved face we gaze,
And wonder that 'tis not so fair
As 'twas in bygone days;
We think not that the lapse of years
Hath marked alike each face;
Forgetting that "old Father Time,"
On *all* must leave some trace.

We speak of days now passed away,
Of happy hours long fled;
Of friends once fondly, *dearly* loved,
*Now* resting with the dead.
Some *happier* hours, around the which
There seemed a magic spell,
Those hours which *mem'ry ne'er forgets*,
On which we love to dwell.

Some shady lawn, some fav'rite tree,
Some green, lov'd bower so sweet,
Where oft we conn'd our *daily* task
Upon that moss-grown seat;
Some purling brook, some limpid stream,
Where pebbles we could find,
E'en the *green turf* on which we sat,
Is now brought fresh to mind.

Once more we hear a mother's words,
Those tones so sweetly mild,
And *vainly* wish again to be,
An *artless, happy* child.
A father's voice long hushed in death,
Seems wafted to my ear,
In breathless silence we await
Those words again to hear.

Then *who* would lose so sweet an hour
Replete with ev'ry bliss?
If *aught* on earth bring heaven to mind,
'Tis such an hour as *this*.

Milwaukee, July 5, 1859. AUGUSTA.

### The Cadets' Visit to Chicago—The Fourth in the Garden City.

Our juvenile military corps, Captain E. C. HIBBARD, visited Chicago on the Fourth as the guests of the Cadets of the 60th Regiment, commanded by Major E. E. ELLSWORTH, and Lieutenants CAMPBELL, SMITH and CLYBOURN. The Cadets left home on the evening of the 3d, on board the fine steamer *Traveller*, Captain SWEENEY, and arrived at Chicago just as the first rays of day commenced to beam upon the glittering spires of the Garden City. Nothing eventful characterized the trip downward, if we except the upturning of a few delicate stomachs, the usually placid waters of old Michigan having been disturbed to such an extent by a Nor'-Easter during the early part of the day as to cause quite a "heavy sea," as they have it in nautical parlance. Therefore, both from necessity and out of regard for the sacred day—not yet ended—our boys "turned in" early and endeavored hard to woo the sleepy god, but for reasons that will readily suggest themselves to steamboat travelers, in most cases unsuccessfully.

At sun-rise "Young America," under the charge of the omnipresent "HARRY," of the L. G. S., and his indefatigable gun squad, thundered forth a hearty welcome to the glorious Fourth.

As the *Traveller* neared her dock, the Cornet Band discoursed some of its liveliest music arousing the Chicagoans from their early slumbers, and very soon a large crowd had thronged about the landing, gazing with astonishment at the file of soldier boys arrayed on deck. The Cadets were received by Maj. ELLSWORTH's corps, and although it was not later than five o'clock, as the two companies marched to head-quarters the streets appeared all astir with lookers on.

After the exchange of the usual military courtesies at the spacious armory formerly known as the Light Guard Hall, the Chicago Cadets sung a very clever impromptu song greeting their visitors as brother Cadets; as the whole company united in the chorus:

Crash, crash, the bayonet,
Hurrah, hurrah, hurrah,
Crash, crash, the bayonet,
For our brother Cadets we cheer!

Sung to the tune of the Bold Privateer, it had a very fine effect, and was taken by the Milwaukee Boys as a compliment not soon to be forgotten. As soon as the Cadets had time to rest and look about them a little, they were provided with a breakfast in the large dining hall over the Armory, that would have done credit to the Newhall or Tremont. The Chicago Cadets waited upon their visitors at the table themselves, vieing with each other in attentive courtesies, Major ELLSWORTH prominent amongst the rest. The Milwaukee Cadets were not long in convincing their Chicago friends of one fact, namely, that they knew how to do the most ample justice to a good breakfast. The other meals that followed were on par with the first, and the boys appetites being sharpened by marching and severe drilling, it is needless to say they were appreciated.

In the forenoon both of the companies marched through the principal streets, and were reviewed in front of the Tremont House by the Mayor and Common Council, not less than five thousand spectators looking on.—Major ELLSWORTH introduced the Milwaukee Cadets, who were welcomed by Mayor HAINES in an appropriate and complimentary speech, which they acknowledged with nine hearty cheers and a "tiger." The occasion was the first appearance of the Chicago Cadets since their new organization, and the first time the Milwaukee Cadets had gone beyond the limits of their own State, so that both companies exerted themselves to appear well, and it's not too much to say that they did credit to themselves, and came up fully to the expectations of their friends. The Chicago Cadets looked, especially, well in their new and handsome uniforms and neat equipments. They went through the difficult evolutions of the Zouave drill in a manner that elicited loud and frequent applause from the spectators. In the afternoon the two companies were reviewed by the Major-General of the 60th Regiment and staff, in the Lake Shore park, where the exercises of the morning were repeated, with the addition of a heavy infantry drill by the Milwaukee Cadets which appeared to give great satisfaction to the large number of ladies and gentlemen who were looking on. The Cadets of the *Sixtieth* then went through their Zouave drill, with even more precision and spirit than in the morning, and were repeatedly cheered by the crowd. In alluding to the parade the *Press & Tribune* well says of them:

Without doubt the Cadets are the crack corps of the city. Since, with the wisdom that the older companies would do well to imitate, they have made strict temperance and morality conditions of membership, and their opposite the cause of expulsion, they have progressed with great rapidity. With them, soldiering is the means at once of social enjoyment and physical education. Their rapid and difficult evolutions and their soldierly appearance, show how wise they have been in steering clear of the rocks upon which many a fine company has been broken up.—As long as their present rule, which forbids the wearing of their uniform in any drinking house or disreputable place is upheld, and as long as they are wise enough to see that the advantages of exercise and drill may be wasted by nights of carousal, they will deserve the encouragement which all who witnessed their evolutions on the 4th are willing to extend to them. We but echo the general opinion when we say that the Cadets cannot be surpassed this side of West Point.

All the papers also speak in complimentary terms of the Milwaukee Cadets and praise them highly for their fine soldier-like appearance and the capital style in which they went through with the infantry drill.

The Cadets were released from duty after supper, when they amused themselves in various ways, some visiting the theatre, some driving about seeing the sights of the city, and others making fun for themselves and a crowd of visitors in the Armory by conducting a Court Martial with side splitting solemnity. "PRINCE JOHN," the "colored gemman," of the Milwaukee Cadets, was the subject, and the charge upon which he was tried was that of having flirted with a young lady in one of the windows of the Tremont House while the military review was going on. The charge was sustained and the swarthy offender defended with great ability, but before the trial was brought to end, the prisoner was rescued, and set at liberty, much to his own satisfaction, for he really looked upon the affair as not so much of a joke after all.

Both companies slept on buffalo robes and blankets, in the Armory on the night of the Fourth, and after the exercises of the day, slept well. Tents were put up along each side of the Armory; each company having a tent for every four members. At nine o'clock on Tuesday morning the Cadets of the 60th escorted their visitors to the steamer, the latter firing a parting salute as the boat left the dock, which was responded to by the boys on shore with what they called "seven old rippers and a tiger."

We venture to say, in behalf of the Milwaukee Cadets, that they will not soon forget the generous hospitality extended to them by their Chicago brother soldiers, on the occasion of their visit to the Garden City.

There was no general celebration at Chicago on the Fourth; but quite a number of excursion and pleasure parties by lake and land, and one or two military parades, besides that of the Cadets. The streets were thronged with carriages and pedestrians, and after nightfall, brilliantly illuminated with fire-works, presenting altogether a very lively appearance. Chicago has improved wonderfully within the past few years. It is certainly a magnificent city, and setting aside local prejudices, we cannot but feel a just pride in its growth and prosperity, as an example of the wealth and advancement of the great West. On every side blocks of elegant marble, stone and brick buildings meet one's view, many of them excelling in architectural beauty, the fine State Bank building in this city. *Many* of the stores will compare favorably with the celebrated hardware establishment of Messrs. H. J. NAZRO & Co., while the church edifices are not surpassed by any structures of the kind outside of New York. The Custom House, which is nearly finished, is constructed after the same plan as our own, but is on a somewhat larger scale.

In our opinion, the finest building in the city, not excepting the one last mentioned, is the Court House. It is built of Lockport marble, and both for convenience and beauty, is a perfect model of architectural skill. It stands in the centre of a square, surrounded by a handsome iron railing, and ornamented by two water-spouts, which were not, however, in operation. In the basement of the Court House is the city jail, in the next story the court rooms, while the upper part is used for public offices. One of the most attractive features about the Court House is a handsome spire, extending nearly as high above the main building as the steeple of St. John's Cathredal, surrounded near the top by a projecting balcony, from which an excellent view of the city and lake for miles around, may be had. The spire is principally constructed of iron, and the top of it is reached by a winding stairs, to ascend which we found to be harder work than an hour's marching. There is a heavy bell on the Court House, and a watchman is constantly stationed there to give the alarm in case of fire; in that way the provoking and damaging confusion incident to our system of bell-ringing is avoided.

We did not observe as many good-looking private dwellings for the size of the city, as may be seen in Milwaukee, and as for hotels, though there were plenty of good ones there, none of them will bear comparison with our Newhall House. The Tremont House, which enjoys so high a reputation, may, perhaps, be as well kept, but it has a very shabby appearance seen from the outside, and is not as conveniently arranged, or as well furnished as the Newhall. Its exterior, however, does great injustice to the interior.

The horse Railroads, which have been in operation in Chicago some three or four months, strike the western visitor as one of the most notable features about the city.—They run through some of the principal streets, and we were told, prove a great convenience to the public, besides being the source of a very considerable revenue to the city. The tracks are no impediment whatever, to the streets, and in fact, the cars are less dangerous, less noisy, and far more agreeable and cheaper to ride in, than omnibusses. The owners are said to be making fortunes out of them.

Notwithstanding the hard times, Chicago is steadily advancing, and we had it from good authority, that many of the large wholesale establishments there, did a profitable business the past spring. It is emphatically a business point, and will never be sought as a place of residence, by any whose calling does not compel them to live there. It surely has no title to its floral cognomen, for a "garden" is one of the *rarest* sights to be seen within its limits.

FLORAL FESTIVAL.—It will be seen by reference to the advertisement, that the pupils of the Seventh Ward School, are to give an entertainment at Albany Hall, this evening, of a very interesting nature. It is announced as the "Festival of the Rose," and consists of an operetta, selected and arranged by Mr. COE, interspersed with a due proportion of Wood-Nymphs, Naiads and blushing goddesses. In looking over the programme, we are convinced, from the neat little plot there set forth, that this entertainment will be a complete success, for the combination of the dramatic, musical and declamatory, to say nothing of the *intrinsic* attraction of the performers—will always please the public, and as, in this case, the public have already formed a favorable opinion of the pupils, from former exhibitions, we have only to call attention to the price of tickets—25 cents.

CORRECTION.—In the account given yesterday, of the Fourth of July celebration in this city, it was stated that Judge HUBBELL addressed the people in the Court House Square, in place of Mr. J. E. ARNOLD, the Orator of the Day, who was *non est*. This was an error. Both Mr. ARNOLD and Judge HUBBELL had been invited to speak in English, on that day, as Mr. KRUER had in German; but Mr. ARNOLD notified the Committee, some day or two before the Fourth, that it would be impossible for him to accept their invitation.

THE WESTERN DENTAL SOCIETY met at Parlor D., Newhall House yesterday morning at 10 1-2 o'clock, and proceeded with the transaction of business. At 11 o'clock, Dr. ALLPORT, of Chicago, President of the Society, gave the annual address.

This Society was organized in 1856, and is composed of near fifty of the most prominent dentists in the Southwestern and Northwestern States. It has many distinguished members of the profession enrolled as honorary members.

Those in attendance are fine looking, intelligent men.

"OLD SETTLER."—We have received a communication, signed "Old Settler," and coming from a veteran Fireman, sharply rebuking the *Wisconsin* for its strictures upon the Firemen, in the matter of the Fourth of July Procession. If we thought that any good could be accomplished by publishing the communication, we would gladly gratify our old friend. But in our judgment, "the least said, the soonest mended," about the whole affair. Let "bygones be bygones."

THE RICHMOND TRUMPET or *Rector's Standard, second edition*, was out yesterday afternoon. The first impression of 1000 copies was sold in a few hours.

This second edition of 2,000, is more correct, and better for preservation. It contains the poem, *Pen, Pulpit, Press*, in a finished form, with some of the *Labor Limæ* that Horace recommends. The second number will be issued on Saturday. The profits go to sustain the Rector's Christian School.

# TELEGRAPH!

REPORTED BY THE N. Y. ASSOCIATED PRESS FOR THE DAILY SENTINEL.

### Arrival of the Overland Mail.

ST. LOUIS, July 5.

The overland California mail of the 8th, arrived here to-night. Political excitement prevails throughout the State. Walker will probably be re-nominated for Governor by the Lecomptonites, and John Curry by the Anties.

Business dull, most of the leading staples have declined. Money scarce, but the next shipment eastward will be large.

Accounts from the mines are favorable.

The Oregon Legislature adjourned without electing a U. S. Senator.

J. J. Stevens was nominated for Congress by the Democrats of Washington Territory.

The shipment of gold dust from Victoria, in May, was $245,000; but accounts from the Frazer River mines are extremely unfavorable. Crowds of emigrants were returning to California, and many were settling in Oregon and Washington.

Charles A. Angell was in jail at Victoria, charged with embezzling from ten thousand to twelve thousand dollars from the Custom House in that city.

### Movements of Steamers.

NEW YORK, July 6—3 P. M.

The royal mail steamship Persia sailed at noon for Liverpool with upwards of $750,000 in specie, and 230 passengers, among whom are Wm. Nure, the British Consul at New Orleans, Ex-President Van Buren, Senator Benjamin, Samuel Beardsley, and Mr. and Mrs. Geo. Eustis.

The steamer Glasgow also sailed for Glasgow, with 150 passengers. She will stop at St. Johns and take the Arago's passengers.

### The Oberlin Rescuers.

CLEVELAND, July 6—3 P. M.

The trial of Jennings, Dowe, Mitchell and Davis, for kidnapping, commenced to-day.—At the instance of their counsel, arrangements were made by which *nolls* were entered in their case, and those of the Oberlin rescuers who awaited trial, and the prisoners on both sides were discharged.

### The Balloon Atlantic.

OSWEGO, July 6—3 P. M.

The express bag sent by the United States Express agent from St. Louis for New York, in the balloon Atlantic, was picked up yesterday in the lake. It contains over forty letters, one enclosing a $1,000 draft on a New York bank.

PORTLAND, ME, July 6—3 P. M.

No communication has been received from Sackville, N. B., since the announcement made last evening, that a foreign despatch was coming for the Associated Press from St. Johns, N. F., supposed to have been furnished by the arrival there of the steamer Adelaide from Galway, with dates to the 25th ult.

ALBANY, July 6—3 P. M.

The State Republican Convention will meet at Syracuse on the 7th of July.

# LATEST NEWS!

## BY LAST NIGHT'S REPORT

## Three Days Later from Europe!!

## ARRIVAL OF THE ADELAIDE!

## Another Terrible Battle Fought!

## ALLIES VICTORIOUS!

ST. JOHNS, N. F. July 6—9 P. M.

The steamship Adelaide has arrived at this point, from Galway, on the 25th, bringing London and Liverpool advices of Saturday noon, received by telegraph. The news is of a highly important nature.

The Empress of France had received a telegram from Napoleon, on Friday evening, announcing that a terrible battle had been fought, and the allied forces had achieved a great victory. The entire Austrian army had formed in line of battle, extending a distance of five leagues. The battle lasted from four o'clock in the morning until 8 p. m.—The French captured a number of flags, pieces of cannon and prisoners.

A despatch from Vienna, says a battle was progressing, but gives no details.

The previous accounts from the seat of war said the Austrian force on the Mincio was fully 280,000 strong, that the entire French force had passed Montechiaro, and their reconnoissance was said to have been pushed as far as Gata, and that the Piedmontese had advanced toward Peschiera, the north-west fortification of the Historic Square.

Napoleon had demanded permission to march 30,000 troops through Hanover to the Rhine.

It was believed that the basis of proposed mediation by Prussia would not be acceptable to France, and Prussia would thereby be involved in the war.

It was also rumored that Prussia had threatened to assist in suppressing the meditated insurrectionary movements in Hungary.

The Swiss troops which were sent from Rome to suppress the rising at Perugia, had had a desperate encounter with the people, shooting them down indiscriminately.

GREAT BRITAIN.—Parliamentary proceedings in England had been suspended until Ministers of Government were re-elected.

It was rumored that the new Ministry would curtail the naval expenditures.

THE VERY LATEST—*By Telegraph to Galway*—Paris, Saturday 25.— The Emperor telegraphs the following to the Empress:

CANDIA, Friday Evening.—Great Battle—Great Victory.—The whole Austrian army formed a line of battle, extending five leagues in length. We have taken cannon, flags and prisoners. The battle lasted from four in the morning till eight in the evening.

A Vienna despatch supplies a partial confirmation of the above in stating that a battle was progressing, but no details had been received.

The Adelaide has over 500 passengers on board.

### New York Matters.

NEW YORK, July 6—9 P. M.

About 2 o'clock this morning, officer Herman, of the 16th Ward, found a man lying on the sidewalk, in 19th street, near Tenth Avenue. On examination he was found to be seriously wounded, having a shot wound in the groin, and a severe fracture of the left thigh bone also a fracture of the right elbow. He was conveyed to the 16th Ward Station House, and lived long enough to give his name as Wm. Coyle, but strange to say, he to state particulars. He was apparently about 55 years old, and a native of Ireland.

Dr. Ranney gave it as his opinion that the wounds were either pistol or gun shot wounds. From the peculiar circumstances of the case the police feel but little doubt that the man was a burglar, and had been shot while in the prosecution of his profession.

The execution of Stevens, the wife murderer, has been stayed till September, to await the action of the Court of Appeals on the case.

A duel was fought on Sunday morning at Hoboken, between two young men of this city, rivals in a love affair. Two shots were exchanged; no injury done.

### The Mountain Meadow Massacre.

WASHINGTON, July 6—9 P. M.

Indian Superintendent Forney writes from Utah that he has discovered two more children saved from the Mountain Meadow massacre. Official reports received at Indian Bureau, state that Capt. Taylor and Nelson are again organizing their forces to again attack the Indians on the Brazos agency reserves, and that the Indians can expect no protection from the Texas state authorities.

### Cricket Match.

MONTREAL, July 6—9 P. M.

The cricket match, between Montreal and New York, commenced this morning. The New Yorkers went in first, scoring 119.—The Montreal wicketers then scored 119 with seven crickets down. The game will be continued to-morrow.

### Kansas Constitutional Convention.

ST. LOUIS, July 6—9 P. M.

A special despatch to the *Democrat* says the Kansas Constitutional Convention met at Wyandotte yesterday, permanently organized by the election of J. M. Winchell, President, and A. J. Martin, Secretary. No business of importance was transacted, The Convention stands 35 republicans, to 17 democrats.

ST. LOUIS, July 6—9 P. M.

The steamer Lehigh, bound to Cincinnati, caught fire in her hold at the wharf this evening. The boat was slightly injured. The cargo, consisting of assorted produce and very valuable, was seriously damaged by water.

### Arrival of the Vigo.

ST. JOHNS, July 6—9 P. M.

The steamship Vigo passed here on Sunday with European dates to the 25th ult., with three days later news than received by the steamer Vanderbilt which arrived at New York on Sunday.

The steamship City of Baltimore which sailed from Liverpool on the 22d ult., was crippled shortly after leaving port by the breaking of her propeller. She put back to port and her passengers were transferred to the steamer Vigo, which took the place of the City of Baltimore and sailed on Saturday the 25th.

The intelligence from the seat of war reports that no battle had occurred, but the allies were still advancing, and had occupied Tonato, Castigliore and Montechaire, all of which had been abandoned by the Austrians, in their retreat to the Mincio.

The Emperor Napoleon was at the allied headquarters.

The Austrian Government has declared, in the most formal manner, that the cruelties attributed to Gen. Urban, in Count Cavour's proclamation, were entirely unfounded.

A sanguinary collision had occurred at Brugia, between the Papal troops and the inhabitants..

Prussia is moving her army upon the Apine.

The Paris Bourse has declined.

The King of the Belgians and the Count of Flanders had arrived at Buckingham Palace, on a visit to the Queen.

Consols closed after official hours on 23d at 61f.80c., a decline of nearly a quarter as compared with the previous day.

An alarming and destructive fire took place at Cork on Thursday night, 23d. The amount of loss was not stated.

Amusements.

FESTIVAL OF THE ROSE.
THE SEVENTH WARD SCHOOL WILL give a Floral Concert under the direction of H. B. Coe, Principal of the Grammar Department, at Albany Hall, on Thursday Evening, July 7th. Tickets 25 cents, to be had at the bookstores and at the door. Concert to commence promptly at 8 o'clock. The proceeds of the Concert will be retained as "scholars' fund," to be divided among the several departments of the school, and used as shall be most needed. The hall will be trimmed with festoons of evergreen, and the young ladies dressed in white, with wreaths of flowers, excepting what change of costume may be necessary to represent the several parts of the Festival.
This Festival of the Rose is a Juvenile Operetta, selected and arranged by Mr. Coe, to represent a custom said to prevail in Arcadia, of taking, on a certain day the young lady who had been found the most virtuous and dutiful to her parents during the year and crowning her with a wreath of pure white roses; thus making *purity* and *innocence* cardinal virtues, which is the *moral* that the Festival designs to reach. The ceremony is supposed to take place in the forest. A very brief description of it is here given. First is heard a recitation announcing the dawn of day. Next come three opening choruses, one of which represents the mountain as echoing their song. The Wood Nymphs and Naiads of the Waterfall now make their appearance, and after being welcomed by the company they sing several songs relating to the Woody Dell and Crystal Fountain; after which they retire to escort the pure-minded girl who is to be approved worthy of the crown of roses. They are attended by the Fairy Queen, who leads in the Queen of Honor, preceded by four little girls as Heralds, representing the four seasons of the year, singing as they come:
"Make way for the Queen,
As she joyously comes
From her vales so green."
The choir immediately take up the song in the same key, and sing the command—
"To your stations, see the lovely Queen advancing."
At this, four young ladies dressed as Guards, take their stand before the portal (an evergreen gateway) to see that none pass but those who are worthy; the choir go on singing an invitation song,—
"Come, dearest maiden,
Impatiently we wait thee," &c
The procession continues to advance until the four guards interrupt the song and strike off in a new key, singing—
"None may pass this portal,
But those who are most worthy."
The procession now stops, and after the necessary questions have been asked and answered, the choir sing again the invitation song. The four who guard the portal, open to right and left, so that the procession may pass in to the *bower of innocence*, where the crown and sceptre are presented by the two maids of honor; they then lead the Queen to her *flowery throne*, singing—
"Hail, all hail,
Hail to our beautiful Queen."
A company of fruit gatherers now come in, bearing baskets of fruits; proposing to have a feast, they sing,—
"We've gathered fruits
Of the choicest kind," &c.
Some boys seeing this, they beg for a share, but the girls refuse, and bid them go and gather for themselves. We have neither time nor space to give in detail any of the scenes which will be represented; it needs to be seen to be appreciated. After the last scene mentioned, the Fairy Queen takes up the play, calling out the "sprites of the season," also twelve little boys, representing the twelve months of the year, an odd one, calling himself the 29th of February breaks in upon them and asks them for a place in their ring. Now comes a *storm scene*, as if they were suddenly overtaken by a shower; this passes away, and a company of the smallest girls, representing little zephyrs, bring a flowery offering to the Queen. After this a lone wandering flower girl happens to come along, asking a penny for her flowers; the larger girls gather around her, as if to protect her, and sing Sweet Home. The Queen now gives her address, followed by other songs, which closes the Festival.

NOTICE.
THERE IS A HOTEL IN MILWAUKEE known as the American House, kept by P. Kane & Son. As for good living, gentlemanly servants, and a house for the traveller, it is not surpassed, even by the showy Newhall House. But to look at the many puffs in the different papers throughout our State for the past few weeks, a stranger would suppose that the Newhall House was the only Hotel, not only in Milwaukee but west of New York City; or in other words, "a little dead-heading goes a great ways."

OFFICIAL PAPER OF THE COUNTY.

RUFUS KING, Editor.

THURSDAY MORNING, JULY 7, 1859.

### Republican State Convention.

A Republican State Convention will be held at the City of Madison, in the Assembly Hall of the Capitol on Wednesday, the 31st day of August next, at 12 o'clock M., for the purpose of nominating candidates for State officers to be supported by the party at the ensuing general election; and to transact any other business that may properly come before it.

As the subject of selecting delegates to the next National Convention may be entertained and acted on by the Convention, it is suggested that the people in their primary caucuses, and the district conventions make such expression as will intimate to their delegates and the State Convention, the general sentiment of the State on that subject.

Each Assembly District will be entitled to two delegates in the Convention.

It is recommended that District Conventions for the selection of delegates be held throughout the State, on or before the 25th day of August, and that committees make early calls for that purpose; and it is especially urged that every district be duly represented in the Convention.

### Reducing its Standing Army.

The Democratic administration has, amid the wreck of its misdeeds, found a lingering virtue sufficient to make a demonstration of economy. It has discharged ninety-five clerks from the New York Custom House, whose aggregate salaries make over $100,000 per annum. The following is the instrument with which decapitation was performed:

> CUSTOM-HOUSE, New York, June 30, 1859.
>
> *Mr.* (naming the victim,)—SIR:—In pursuance of the determination of the honorable Secretary of the Treasury to reduce the expense for collecting the revenue in the several districts of the United States, I have to inform you that the services performed by you will be added to the duties of another clerk, and that your employment in the Custom-House will cease after this date.
>
> AUGUSTUS SCHELL, Collector.

The *Tribune*, in referring to this catastrophic action on the part of the government, says "there was a mournful season at the Custom-House yesterday, and to-day there will be weeping and wailing and gnashing of teeth, and much swearing, and valiant threats of vengeance, on the part of those aggrieved patriots who have fed from the public trough until their appetite for honest and independent industry has been quite spoiled. Ninety-five heads, each one of which—according to the owner's estimate—was the only head under heaven which could preserve the Union and perpetuate the liberties enjoyed in the land of the free and the home of the brave, were remorselessly brought to the guillotine, and fell in grinning horror into the offal basket.

"It is needless to say that we sympathize deeply with the headless martyrs of Poverty Corner, and we respectfully submit that the entire force of the defunct be invited to assemble with the Sachems at Tammany on Monday next, to glorify the American eagle in general, and the Democratic party in particular."

### Our State Administration.

The La Crosse *National Democrat*, in the course of an article rallying the Sham Democracy, for the Fall campaign, says:

> An ardent desire to rule out the corrupt officials of Randall's administration, seems universal. The last legislature was a disgrace to the State.

The "corruption" has yet to be proved against any "official of the present State administration." If the Sham Democracy desire to compare notes, in this respect, between the RANDALL and BASHFORD administrations, the Republicans are ready.

The "last Legislature," so far from being "a disgrace to the State," was, by common consent, the best Legislature that has assembled at Madison for many years. Such, we *know* to have been the opinion, not only of leading Republicans, but of staunch and honest Democrats. If our La Crosse contemporary has any doubts on this point, we refer it to Lieut. Governor CAMPBELL, who presided in the Senate, and must, of course, share in the "disgrace" which the *Democrat* seeks to fasten upon the whole Legislature.

HOW IT WORKS.—We understand that the levies realized from the Post Office Department, yesterday, by Brigadier General George Washington Bowman, amounted to about one thousand dollars. This is certainly a very good day's work.

We do not know which to admire most—the tactics of Miramon in levying a half million on the specie train through Mexico, or this levy of General Bowman on the Government clerks.—*Washington States, (dem.) Nov. 29th.*

Such are the means by which the Government organ is now supported. Armed with "Federal" authority, the proprietor of the *Constitution* makes the tour of the Department, commanding every clerk to "stand and deliver," on pain of dismissal from the public service. This is the most shameless levy we have yet heard of, and is a characteristic contrast with the doctrines so ostentatiously put forth in the Duquesne letter of President BUCHANAN. What an imprudent imposture this Sham Democracy is!

EDITORIAL CONVENTION.—We have unavoidably been compelled to defer a notice of the Editorial Convention from time to time until a recapitulation would be stale, but we cannot pass over our appreciation of Milwaukee and her citizens. Milwaukee never has been of doubtful prosperity or slow of growth, but her past progress is incipient only to her future. The evidence of her future is her trade of unusual soundness increasing with rapid strides, in her permanent uniformly increasing and valuable improvements, in her great and extending communications, in the stable character of her business men and in the unlimited resources of her backer—the State of Wisconsin; with these her future is of no doubtful issue, but she is possessed of the certainty of becoming one of the greatest, if not the greatest point of the West.

In her social *status*, also, Milwaukee contains more than ordinary elements of success. Her citizens are prominently noted (and worthy are they of that note) for their hospitality to strangers and for their worthy social qualities, the benefits and pleasures of which we have been the recipient of in times past, as well as upon the occasion of the Convention. It was our good fortune upon this occasion, to be entertained by Col. Walker and his Lady—surely the Col. did not live so long an old bachelor for nothing, for we can rarely find one who can and does conduct the affairs of a household with so much grace and ease as Mrs. Walker; suffice it to say, we enjoyed our visit hugely—had a number of pleasant rides around that splendid city, and partook of the luxuries of our host's well filled table—strawberries, *spring-chickens*, and *everything* good, after which we could hardly make up our minds to come down to our own homely fare.

If all the strangers were as agreeably entertained as we were (and knowing the general hospitality of the city we believe they were) it speaks and will tell volumes for Milwaukee, and all will, again, as we do, long to visit that lovely city.—*Ripon Star, July 5.*

SUSPENSION OF CHAMBERLIN, CRAWFORD, & Co.—We print to-day, in another place, the card of this firm, announcing that unexpected and unavoidable difficulties had compelled it to place its affairs in liquidation, and the statement of Philo Chamberlin that there is every prospect of a full and satisfactory settlement of all the creditors being made within a reasonable time. Mr. Chamberlin's reputation for business integrity stands unimpeached and his statement as to the affairs of the firm will therefore be received with entire confidence by all who know him. In taking the unpleasant step of suspending payments, the firm was actuated by a desire to protect its creditors, and secure to them the full value of the amounts due them, at the expense only of a little patience. They wisely thought it better to meet the matter boldly at once, than to put the evil day farther off, only to make the matter worse when it could no longer be evaded.

The propeller lines will run as usual, and the business will be carried on by Messrs. Pelton & Breed, so that as far as the public are concerned, no inconvenience will result from the change of affairs. The Northern Transportation Line will continue to merit and receive the patronage and confidence of the public.

Mr. Chamberlin proceeds with unshaken energies in the task of closing up the affairs of the late firm, and arranging for the ultimate payment of all claims. That he will be successful we have no doubt, and in his task he has the sympathy and confidence of all his business acquaintances.—*Cleveland Herald, July 1st.*

### The Upper Mississippi---Dubuque---Keokuk.

*Correspondence of the Sentinel.*

ON BOARD STEAMER LOUISIANA,
KEOKUK, Sunday, July 3, 1859.

*Editors Sentinel:*—As a Milwaukeean journeying for our first time on the "father of waters," we are anxious to acquaint you with what we have seen, and experienced in this portion of the world.

On Thursday, June 30th, we took passage on board the *Grey Eagle* for St. Louis, as we then thought, but were soon made to understand that two other boats would assist us before coming to our journey's end.

On arriving at Dubuque, Iowa, we were requested to step on board the wharf boat—a kind of a barge which serves as a dock—and remain there a half hour until the arrival of the *Ben Campbell*, which was taking in a few pigs of lead some miles above. It amounted to just this: the Capt. of the *Grey Eagle* had a brilliant idea that by getting us off his boat, he would not have to take us to supper that night or breakfast next morning.—He should have taken us to Galena and there put us aboard a down river boat next morning. But instead of this, about a dozen down river passengers, among whom were several ladies, passed the night on trunks or the floor. Your correspondent wrapping himself up in his overcoat—for it was quite chilly—passed the night with aching bones—listening now and then as he woke from a fitful snooze, to the curses loud and deep which were uttered against the captain of the *Grey Eagle*. We were waiting for the "half hour" to wane from 4 o'clock Thursday afternoon until 7 o'clock next morning, when we got on board the *Black Hawk*. We learned that the captain knew the *Campbell* had 2,500 pigs to ship above Dubuque, where it had gone, leaving its route.

The lower portion of Dubuque appears as if it had been well watered while the river was high, for at present several blocks of building lots look like miniature lakes—the roads dividing them up. The business part of Dubuque is safe from water. I noticed not a few empty stores in the lower part of the business street—telling of the nips of hard times.

There are many small towns along the margin of the Mississippi, which present the appearance of having hopped from the river and accidentally landed along the river's bank. There are also people foolish enough to build so low as to let the first moderate high waters swamp them.

We know of no damage being done by the high water in La Crosse,—excepting, perhaps, a few frame buildings which are built where almost any one could guess their fate, have had the water taking French leave to walk in the doors and windows. But these can hardly be said to belong to La Crosse, not being built on the high land where the city stands. La Crosse has a good location for a city, being high enough from the river, and on a level prairie. To us it has the appearance of a vast amphitheatre,—the bluffs which everywhere surround the level prairie, towering majestically above. It is really a fine sight to mount these bluffs and look down upon the farms below, which look like little patch work worked in with green leaves, and the roads running across the prairie like narrow foot paths.

On coming to La Crosse, five weeks since, I bought a cabin ticket to St. Louis for $5, but not being able to go down there, I had my money refunded, and now pay $10—the Packet Companies having consolidated. The fare from St. Paul to St. Louis is $11.

There is a mean kind of imposition practiced by the porters of the boats, who extort a quarter for each trunk, or package put in the baggage room. Thus, a fellow-passenger on board pays $1,50 for his trunk and a package—50 cents on each of these different boats. It is cheaper and less trouble to ship baggage as freight.

If not desirous of seeing the Mississippi, the better way for St. Paul and other upriver passengers, is to take the cars at Dunleith, and they can then make the journey in about two days. By boat, we have to remain over all night at Dubuque, or Galena, Rock Island, and at Keokuk. We were at Keokuk from Saturday evening until eight o'clock this (Monday) morning. The fare is the same, as a friend of mine went that way the other day.

I have learned that the men of-all-work on board these boats have a wonderful manner of placing stray articles of dress in obscure places, such as throwing your little bundles as far under the berth as they will go. This morning I missed something pertaining to my wardrobe, and thought it lost until I had searched well, and found it *between the two mattresses*. Had I said anything about it, doubtless, with lamb-like innocence, they would say, "Why, here it is, sir, accidently got mixed among the mattrasses."

The steamer *Black Hawk* has been remaining here with her steam up some time, in order to wait and race with the *Hannibal City*, which is on an excursion trip from St. Louis. She has just arrived, (between 8 and 10 o'clock,) having on board the "Water Witch" fire engine of Quincy, Ill., a band of music, a cannon, and some hundreds of excursionists, bound for Rock Island and Davenport. With her music, and the sky-rockets she sends in the air, she has created quite an excitement. She is now off racing with the *Black Hawk*, a smaller boat, which went a few minutes before her. Sunday is hardly the proper day to make this fuss, but probably they may be excused, it being so near the "Glorious Fourth." The people on shore, by their noise, seem to enjoy it.

The *City of Louisiana*, on board of which we are, is a fine boat, and is said to have run from Keokuk to St. Louis, in 16 hours, 10 minutes—ten minutes spent for landing: distance: 250 miles.

JULY 4TH.—The people of Keokuk are celebrating. A Company—as they call themselves—of the "Ancient, Antique and Horrible," have just appeared on shore, near the boat, and have made quite a stir. The people of the small places of Warsaw, Ill., and Alexandria, Mo., are also trying to celebrate.—Weather has been so cold that we have fire in the cabin. In haste, adieu.

REGLET CHASE.

### The Tippecanoe Military Encampment.

*Correspondence of the Chicago Journal.*

LAFAYETTE, Ind., July 4, 1859.

This town is the scene of excitement and military display, the occasion being a grand Encampment of various military companies from this and adjoining States, at the Tippecanoe Battle Ground, and a general Fourth of July Celebration.

On Saturday there was a preliminary celebration at the Camp—addresses by Col. Lane, Hon. John H. Thompson, Hon. Isaac Naylor, and others, and some imposing drill and parade exercises by the military.

There are twelve military companies here this morning, viz: Louisville (Ky.) Citizen Guards, National Blues, and Marion Rifles; Crawfordville (Ind.) Montgomery Guards; Maumee (Ohio) Waynesville Guards; Wabash (Ind.) Guards; Peru (Ind.) Tecumseh Rifles; Springfield (Ill.) Cadets; Layfayette (Ind.) Guards, Toledo (Ohio) Gunners, and the Tippecanoe Gunners—numbering in all some five hundred men. Capt. Buckner, of the Louisville Guards being General Commandant.

The scene is of warlike aspect. The camp consists of four acres of tents, arranged in the usual order.

To-day will be the grand day of the Encampment. The civic celebration will join that of the military. An oration will be given by Hon. Tom. Corwin, of Ohio, and other patriotic exercises, concluding with a grand festival in the evening.

THE CORPORAL.

MELANCHOLY DEATH OF A LEADING CITIZEN OF LA SALLE.—We learn from the local papers that Hon. W. M. Mills, late Mayor of the city of La Salle, in this State, a highly esteemed citizen, died on the 27th ult., of the terrible disease of hydrophobia. He was recently bitten by his small household pet dog, which he was fondling at the time, and which proved to be rabid, and the disease became violently apparent in a few days, and he died of its dreadful effects.

The last sad honors to his remains were attended on Tuesday afternoon by a large concourse of citizens, and during the services the places of business were closed, and many of them were draped in mourning.—*Chicago Journal, July 5.*

### The Great Thellusson Case.

This important and singular case has just been decided in London, and deserves at least a passing notice. The following are the facts of the case: Peter Thellusson, a merchant of London, died in July, 1797, leaving £600,000 in money and land, to the annual value of £4,500. He left three sons, Peter, George and Charles, and six grandsons. By this will, dated in 1796, after several small legacies, he devised all his estates to certain trustees for the purpose of the money being laid out in the purchase of land, the rents as received to be invested in a similar manner.—This accumulation was to continue until the death of the survivor of all his descendants—nine in number—who should be living at the time of his death. The total was then to be divided into three portions, one to go to each "eldest male lineal descendant" of his respective three sons. This will terminated with an appeal to the Legislature not to alter it, the testator submitting that he had earned his fortune by industry and honesty.

His will was respected by the Legislature, but it gave to the testator's memory the compliment of "vanity, illiberality and folly," and to mark their disapprobation, they enacted by statute 39th and 40th of George III. chap. 98, that the power of devising property for the purpose of accumulation, should be restrained in general to twenty-one years after the death of the testator. If the wishes of Peter Thellusson had been strictly carried out, the property to be divided would have amounted to upwards of £30,000,000, but for sixty-one years a series of Chancery suits were instituted by various persons who hoped to grasp a portion of the immense wealth lying idle and unenjoyed before them, and these expenses of Chancery and other costs have so reduced the estate that but little, if any, more than the original bequest remains to be divided.

The event mentioned in the will—namely, the death of the survivor of the nine lives, happened in February, 1856, when four new bills were filed for the purpose of having it declared who was entitled to the property, which was now to be divided into moieties, instead of thirds in consequence of the death of George, (one of the testator's sons) without issue. Four persons claimed to be entitled to moieties of the estate—Baron Rendlesham and Charles Sabine Augustus Thellusson, as being the eldest male descendants in point of lineage of Peter, Isaac and Charles respectively, and Thomas and Artur Thellusson, as being the eldest descendants in point of years of those persons.

After some discussions, it was decided by Lords Cranworth, St. Leonard Brougham, and the Lord Chancellor, in favor of Baron Rendlesham, and Charles Sabine Augustus Thellusson, as the eldest male lineal descendants in point of line of the testator's sons, Peter and Charles; as it was evident from the context of the will, as well as from the technical meaning of the words, that the testator intended the eldest in line to take, and not the eldest in years. The appeal was therefore dismissed, and the *costs of all parties paid out of the estate*. The sentence in italics explains why, in Great Britain, Chancery has such a destroying effect on estates, and also why controversy is so common.—The winner must pay according to Chancery decisions.

AUSTRIA AND ITALY.—Mr. Williams, the intelligent editor of the Utica Morning *Herald*, who has recently returned from Europe, and has traveled extensively in Austria and Italy, makes the following statements from his own personal observations:

"Our readers will bear us witness that we have betrayed no friendship for Austria. We regard her rule in Italy and Hungary as tyrannical and infamous. We look upon her policy as cold, cruel, and selfish. Her influence upon the politics of Europe is bad, and bad only. She is the champion of decaying systems and exploded ideas. She is the traditional foe of progress. Her voice has been ever raised and her arms have been ever turned against Freedom. Her sovereigns, from the infamous Maximilian the Second, down to Francis Joseph, have been the agents of tyranny and tools of persecution.

But it is possible to paint the devil blacker than he is. In our honest abhorrence of the tyranny of Austria, we may do her, bad as she may be, great injustice. Our journals are filled with tales of her barbarities. We paint her as all that is cruel, blood-thirsty and detestable; as delighting in the infliction of every species of torture upon peaceful and unoffending people. We picture her as oppressing her people without cause—as a Power which persecutes for past-time. We represent her as overshadowing, by her collossal tyranny, everything else monstrous and wicked in Europe. We imagine Austria to be one vast jail, the inhabitants to be the most oppressed and degraded of wretches. Let us endeavor to correct one or two of these exaggerated impressions with respect to Austria and the Austrians.

The Austrians are neither barbarians nor slaves. There are no better bred people in Europe. Nowhere else are social amenities more developed—nowhere else does the stranger receive more kind and courteous treatment. At once affable and sincere—with all the honest heartiness of the Germans, and all the polished ease of the Frenchman, there is no better specimen of the gentleman than the well-bred Austrian.

In no country of Europe, with the possible exception of Northern and Central France, is the physical condition of the common people better. In no other country in Europe does one see less poverty and squalor. In no other country of Europe—hardly excepting Prussia—is the standard of popular education so high. It is a rare thing to find an Austrian peasant who cannot read and write. No one can receive a license to marry unless he is able to subscribe his name with his own hand to the certificate.

Nowhere else are more liberal provisions made for the sick and the poor. Nowhere else are there more magnificent schemes of public charity; are there better hospitals and asylums; are there cheaper and more efficient schools. As in France and Germany, the Government takes the matter of taking care of himself off the hands of the subject. It is his great business to be dutiful—not to worry himself about the future. If he wants a profession, the Government selects one for him; if he gets sick the doors of the hospital are open to him. We should not like this sort of perpetual tutelage; but it's the Continental fashion, and nobody does it more gracefully than Austria.

In no country on the continent, with the possible exception of Switzerland, are the annoyances of the Passport system less than in Austria. In this respect she is at present far ahead of France. Her Ministers in Foreign Courts exact no fee for Visas, nor is a single Visa required from the time one enters her dominions until one quits them. This reform in reference to Passports is of somewhat recent date, and is due to the personal efforts of the Emperor.

Austrian officials are models of courtesy.—Every instance of rudeness or insolence is punished with the utmost rigor by the Government. The stranger, whatever may be his condition, receives nothing but the kindest treatment from the time he enters the country until he leaves it. Every kind of information which he may require is imparted with the utmost cheerfulness. One feels confident that in approaching an agent of the Government he will experience the utmost courtesy at his hands. In this matter of official politeness, we must concede the palm to the Austrians above all others—even the Frenchmen.

After what we have written, the reader will be prepared to credit the flat denials, by the French and Sardinians themselves, of the stories of "Austrian Barbarities which have been going the rounds of the press. The crimes of Austria in Italy have been great, and we pray to God she may be driven beyond the Alps: but let us have done with this silly twaddle about her being the tyrant *par excellence* of Europe.

SAD CASUALTY—R. H. BACON, ESQ., DROWNED.—We are pained to announce the death of R. H. Bacon, Esq., connected editorially with the *Daily Times*, who fell overboard from the steam tug *Sailor*, yesterday, while on an excursion to Waukegan, the calamity occurring near that city. It seems that he was sitting on the side of the boat on the upper deck, and some one running against him, he was precipitated into the lake. The alarm was immediately given; a settee, a life-preserver and planks were thrown to his assistance, the engine reversed, and a small boat sent to his rescue. But all proved unavailing. He is supposed to have become chilled by the water and sunk before assistance could reach him.

Mr. Bacon was a man of fine education, his intellectual attainments being of a high order. He was a polished writer, and a poet of considerable power. He was a native of the vicinity of Boston, and was about 37 years of age. He was a graduate of Hamilton College, N. Y., and afterwards studied at Cambridge University for the Ministry, to which profession he was admitted in 1848, when he settled as a Unitarian minister at Rochester, N. Y. He has been a regular contributor to the Boston *Post*, both under his own proper signature and under the *nom de plume* of "Old Huncks," and was also for some years a contributor to the pages of the *Knickerbocker Magazine*. He has been a resident of this city for some five years—was at one time a clerk in the post office—and has subsequently been engaged in literary pursuits. He was an eccentric person, but a fine scholar, and a man of excellent heart.—He leaves a wife, but no children. His parents reside near Boston.—*Chicago Jour., July 5.*

MCMAHON ENTERING MILAN.—A Milan letter of the 9th says: "An interesting incident occurred here when the French troops entered this capital the day before yesterday. The first large body that arrived had Marshal de McMahon at their head, and the municipality went out to receive them. The whole population, wild with joy, precipitated themselves under the horses' feet. A little girl of five years of age, dressed in white, forced by some means a passage, no doubt aided by the crowd, and presented to the Marshal a bouquet of flowers nearly as big as herself. He raised her up, and placed her standing before him on the saddle. The child threw her arm round the sunburnt head of the conqueror of Magenta, and kissed him repeatedly amid the loudest cheers I ever heard. The Marshal seemed delighted with the child, and fondled her most tenderly, looking frequently at her pretty features. And so they both entered Milan amid a shower of bouquets and applause. I saw many persons affected even to tears."

COUNTERFEIT BANK-NOTES.

EUREKA COUNTERFEIT DETECTOR

HEWET'S ENCYCLOPEDIA OF AMERICAN BANK NOTE CURRENCY.

By Photo-Lithographic Fac-similes, in miniature, of every genuine note of every solvent Bank in the United States and Canada.

AN INFALLIBLE DETECTER OF ALTERED, SPURIOUS, AND COUNTERFEIT MONEY.

With a fac-simile of the genuine Notes before you, how can you take the bad?

No Written or Printed Description of Bank Notes, no Matter how Carefully Compiled, can ever be made an Infallible and Perfect Protector.

Since the application of the art of Engraving to the commercial use of paper currency—a period of more than fifty years—it has been the object of all the parties interested to secure their issue against the fraudulent imitations of titles, and the *raising* or substitution of higher denominations of value; but, so far, that desirable object has never been accomplished, for upon the [illegible] of genuine Bank Notes contained in the very first number of this [illegible], there are [illegible] now in circulation.

The plan of this work has received the highest encomiums for its great utility and value to the public, as a protector against loss by fraudulent paper money, as well as for its desirability as illustrative of a department of this fine art in which this country excels all others.

From a great mass of such notices, we mention the following from persons occupying the most important and influential relations to the security of paper money, viz:

CHAS. TOPPAN, Esq., President of American Bank Note Company.
The Hon. JAMES M. COOK, Superintendent Bank Department, State of New York.
The Hon. J. C. SQUIRES, Superintendent Bank Department, State of Wisconsin.
METROPOLITAN BANK, New-York.
D. LYMAN, Esq., New-York Clearing-house.
The Hon. CHARLES WHITE, Superintendent Bank Department, Massachusetts.
H. G. GROVES, Esq., Boston Clearing-house.
NEW-ENGLAND ASSOCIATION FOR SUPPRESSION OF COUNTERFEITS, &c., &c., &c.

The work will be arranged in alphabetical order—the most simple arrangement possible for reference—commencing with the Bank Notes of the City of Boston Banks, and State of Massachusetts; then of the banks of the other New England States; then of the Middle, Western, Southern States and Canada, in regular succession.

The new notes of new banks, as fast as they appear in circulation, and also all alterations of notes of banks now in existence, will be issued in the same style with this work in a weekly or monthly extra, and in this manner the public will always be kept fully secured in regard to the entire circulation of the genuine paper currency of the country.

The ENGRAVED FAC-SIMILE COUNTERFEITS will be designated in each number, and their distinctive features from the GENUINE notes will be made as plain as possible.

The work will be issued in weekly numbers, each of which will contain 144 [illegible] of genuine notes, and will be comprised in about 75 numbers, and about 11,000 [illegible] of genuine notes, and will be completed in one year from the date of the first number by the regularly [illegible] its completion.

THE IMPRESSIONS OF NOTES IN THIS WORK ARE NOT PHOTOGRAPHS, BUT PHOTO-LITHOGRAPHS, PRINTED FROM STONE WITH CARBON INK, AND WILL NOT FADE.

The first number will be issued on Saturday, July 2d, and regularly, thereafter, every Saturday, and will be for sale by all Newsdealers and Periodical Agents.

The price of the weekly numbers will be 25 cents each. Subscribers, by prepayment of $12 in current funds, will have the weekly numbers of the work regularly mailed to them, postage free. All remittances may be made at our risk. Postage Stamps will be received in payment for single numbers only, which will be free of postage.

A liberal discount will be made to AGENTS. All orders must be accompanied with CASH. Address

THE UNDERSIGNED BEGS LEAVE to inform his friends and the public in general, that

Messrs. FREUND & GROSSINGER,

L. W. A. JACOBI,
Murray's Block, Market Square.
Milwaukee, June 16th, 1859.

THE PURE WINES OF HUNGARY.

STATE ASSAYER'S OFFICE, 32 Somerset St., Boston, July 1st, 1858.

Messrs. FREUND & GROSSINGER,—*Gentlemen*—I received from you eight samples of Red and White Hungarian Wines, which, at your request, I have submitted to chemical analysis. I send you the details with this letter.

From my researches it appears that these Wines are pure, and they contain nothing but the products of the grape. I can confidently recommend them to the public as good and pure wines, and as not so likely to become sour as the light wines of France.

I exposed my samples forty-eight hours to the air, in a warm room, without any souring having taken place.

The general character of the red Hungarian Wines is that of the Red Burgundy of France, and the White Wines (with the exception of the sweet of dessert wine) are between Hock and Sauterne, but somewhat stronger than either of these.

I am satisfied that, when known to the public, the Hungarian Wines will be greatly in favor, and that they will be much sought for.

Respectfully, your obedient servant,

**'LEFT HIS CRUTCHES in Mrs. HAYES' SHOP.'**

AN OLD MAN CAME LIMPING IN Mrs. Hayes' Medicine store, No. 115 Fulton St. He asked for a bottle of Radway's Ready Relief. His limbs were so stiff, so weak, and so painful, that the distressed old man could go no further without bathing his crippled legs. In a few minutes he felt new life thrilling through his whole body; first, his legs felt a genial glow of warmth, then the stiffness disappeared—next, he felt the muscles and tendons becoming strong—and so vigorous did he feel, that after a few minutes rubbing with the R. R. R., he arose, stood upon his feet, and walked away, rejoicing at the sudden effect—[illegible]

### FLOWERS.

They spring unnoticed and unknown,
'Mid rocky wilds they bloom,
They flourish 'mid the desert lone,
They deck the silent tomb,
They cheer the peasant's lowly cot,
Adorn the monarch's hall,
They fill each quiet shady spot—
Oh! who can tell them all?

Some o'er the murmuring streamlet fling
Their blossoms bright and fair,
And there, in vernal beauty, spring,
Fanned by the fragrant air.
Some 'neath the ocean's rolling waves,
In silent grandeur grow,
Nor heed the storm which o'er them raves,
But still in beauty blow.

Some where the eagle builds her nest,
Where man has never trod,
Where e'en the chamois dare not rest
Upon the crumbling sod—
Yes, there, e'en there will flowrets grow,
In richest dress arrayed,
And o'er the clamorous eaglets throw
Their light and graceful shade.

'Mid mountains of perpetual snow,
And by ice girdles bound,
Some rendered doubly beauteous, grow,
And deck the frozen ground.
And 'mid cold winter's angry storm
The snow-drop rears its head,
And shows its pure, unspotted form,
When other flowers have fled.

Some on the breezes of the night,
Their grateful odors send;
While others, children of the light,
To day their perfume lend.
Some bloom beneath a torrid zone,
'Neath India's sultry skies;
'Mid Iceland's mountains chill and lone,
The forms of others rise.

The stately fern, the golden broom;
The lilly tall and fair—
All these in rich succession bloom,
And scent the summer air.
In secret dell, by murm'ring rill—
In gardens bright and gay—
Within the valley—on the hill—
Flowers cheer our toilsome way!

Flowers image forth the boundless love,
God bears his children all,
Which ever droppeth from above
Upon the great and small:
Each blossom that adorns our path,
So joyful and so fair,
Is but a drop of love divine,
That fell and flourished there.

HOW TO IMPROVE A FLOWER GARDEN.—Books and papers will afford much information on this subject, but there is something to be learned outside of them. By reading, we get hold of many useful principles and facts, but careful observation will teach us many more, hardly less useful. He is likely to make the best gardener, who knows best how to use his eyes. We therefore make this suggestion to our readers, for their use the present summer. Visit all the gardens within your reach, and make notes of everything you see. Begin early in this very month of July, and continue your visits throughout the summer. Every proprietor of a fine garden, on learning your object, will welcome you within his enclosures, and give you all facilities for learning what you desire.—Study, then, the arrangement of walks, and how they are made. Note the trees, shrubs, vines and plants. Observe their times of flowering, their color, fragrance, and whatever else may strike you.

Persevere in this, and by the close of the flowering season, you will have learned much that will be of great practical benefit—saying nothing about the enjoyment you have experienced. From your notes, you can select a list of plants with whose habits you are already familiar, which will add much to the beauty of your own garden. Many persons annually ransack the catalogues of distant nurserymen, in order to find plants to decorate their grounds with; and on selecting those which have high sounding names and brilliant descriptions, they are often disappointed, when the plants come to flower in their own ground. If you can see specimens of your flowers before you purchase them, it is much better than to buy at hap-hazard.—By carefully putting down upon paper, notes of what you see in your own gardens and in those of others, during the present season, you will be all ready to make early selections another year, and also to arrange various plants in proper harmony.—*American Agriculturist.*

BOUQUETS.—Every one who loves flowers is desirous of having them, not only in the garden, but also to ornament the parlor, mantle, and dining table. You must make provision now for supplying your vases in summer. Verbenas will form the staple, probably; for no flower blooms more profusely, or is better adapted for bouquets than this—as it retains its freshness for a long time, and the petals do not drop until they are entirely withered. You may cut your verbenas with a free hand, for they will only bloom more freely for it.

Roses, particularly buds and half opened flowers, form a valuable part of the summer bouquet; but do not cut the fully opened roses, as they will very soon begin to drop their petals, and lose their beauty long before the rest of the flowers have faded.

The beautiful and graceful spray of the Dielytra should also be found in the bouquet, and the modest flower of the Deutza gracilis and the various spires, will also add to its beauty.

Asters, Delphiniums, Phloxes, Pinks, and Sweet Williams, will all be found useful for this purpose.

Plant an abundance of white and purple Candytuft, Sweet Alyssum, Mignonette and Heliotrope; for all of these will add greatly to the beauty and fragrance of the bouquet.

### MAP OF THE SEAT OF WAR!!

PRICE TWENTY-FIVE CENTS.

At STRICKLAND & CO.'S.

This Map comprehends the whole region of country on which the present war will be waged.

THE STATES WHICH FIGURE ON THE Map are Piedmont and Lombardy in the North, and south of these, Parma, Modena, Carrara, Lucca, and parts of Tuscany and the Papal States. On the north we have [illegible] of Switzerland and the Tyrol; on the west the Alps cutting [illegible] France; on the east we see the Adriatic. The war will evidently be confined within these limits. The territory comprised in Lombardy, Venice, Piedmont and Savoy, Parma, Modena, and Tuscany, though not quite as large as the State of New York, contains a population of nearly [illegible]. Of these, only [illegible] [illegible] from the direct or indirect sway of Austria. Lombardy, which is part of the Austrian empire, and which is, in some respects, the finest country—in point of natural advantages—in the world, contains [illegible] If one [illegible] twice [illegible] as many.

The Austrians crossed the Ticino, we are told, at three points—[illegible] Novara, Casale and Vercelli, and further north, Biella and [illegible], and the northern extremity of the railway from Arona, on Lake Maggiore, to Genoa. Of these points, the only one of any strength is Casale, which is an important military position, and has been strengthened at considerable expense. It is the nearest strong place to the Lombard frontier, and was for a long time the scene of many a conflict. The population of the [illegible] was 21,000. Novara is unfortified, the only place of note, with about [illegible] inhabitants. A railway connects Novara with Turin. The French have entered Piedmont on two sides—by the Mont Cenis and by Genoa. Railroads from Susa and from Genoa will enable them, if they choose, to concentrate their forces on Turin in a few hours. The [illegible] passes through Alessandria, which is, next to Genoa, the strongest place in Piedmont; [illegible] [illegible] the north [illegible] from Genoa. [illegible] from Alessandria, and from Turin to Vercelli, which would enable the French to collect their troops [illegible]. The first battle of the present campaign was fought at Montebello, May 21st. The great battle which decided the fate of Napoleon's first Italian campaign, was fought June 14th, 1800, on the plain of Marengo, within sight of the fortress of Alessandria. j-25

IRISH LINENS, DAMASKS

DIAPERS, &c.

CONSUMERS OF RICHARDSON'S Linens, and those desirous of obtaining the Genuine Goods, should see that the goods they purchase are sealed with the full name of the firm, RICHARDSON, SONS & OWDEN, as a guarantee of the soundness and durability of the Goods.

This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season, and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine goods, will not readily abandon a business so profitable, while purchasers can be imposed upon with goods of a worthless character.

### SOYER'S SULTANA SAUCE.

For Hot or Cold Dishes of all Kinds.

THIS MOST DELICIOUS and appetising Sauce was invented by the renowned "SOYER," on his return from the Crimea, and since his decease is manufactured by CROSSE & BLACKWELL, London, from the original recipe. The manufacturers simply ask for it a trial, convinced that it must add to the already large consumption, and that it will prove itself unequaled, either as a stimulant to the appetite or an aid to digestion.

**Opinions of the London Press**

"We recommend our correspondent to try Monsieur SOYER's new Sauce, entitled the 'Sultana's Sauce.' It is made after the Turkish recipe: its flavor is excellent, and it affords considerable aid in cases of SLOW AND WEAK DIGESTION.—*The Lancet.*

"The Sultana's Sauce is savory, piquant, and spicy; a happy combination of flavors and essences worthy of the delicate taste of a Sultana, the genius of a Soyer, and the universal patronage of a discriminating Public."—*Observer.*

"A concentration of all the piquant resources of Turkey and Russia."—*United Service Gazette.*

"As a titillater of the appetite this Sauce stands alone. It is a most valuable adjunct to Fish, Flesh, or Fowl, and should be placed on every dinner table."—*Atlas.*

**DYSPEPSIA,**

**DISEASE OF THE KIDNEYS,**

LIVER COMPLAINT,

WEAKNESS OF ANY KIND,

**FEVER AND AGUE,**

And the various affections consequent upon a disordered

STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Apetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Its reputation at home produced its introduction here, the demand commencing with those of the Fatherland scattered over the face of this mighty country, many of whom brought with them and handed down the tradition of its value. It is now offered to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit and infusing new health and vigor in the system.

READ CAREFULLY! The genuine highly concentrated Boerhave's Holland Bitters is put up in half-pint bottles only, and retailed at ONE DOLLAR per bottle. The great demand for this truly wonderful Medicine has induced many imitations, which the public should guard against purchasing.

Beware of imposition! See that our name is on the label of every bottle before you buy.

### THE LIVER INVIGORATOR!

PREPARED BY DR. SANFORD.

**Compounded entirely from Gums,**

IS ONE OF THE BEST PURGATIVE and Liver medicines now before the public, that acts as a Cathartic, easier, milder and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that purges it, and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity.

| | | |
|---|---|---|
| The LIVER is one of the principal regulators of the human body; and when it performs its functions well the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the Liver for the proper performance of its functions; when the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the LIVER—having ceased to do its duty. For the diseases of that organ one of the proprietors has made it his study, in a practice of more than twenty years, to find some remedy wherewith to counteract the many derangements to which it is liable. | K<br>O<br>L<br>A<br>R<br>O<br>G<br>I<br>V<br>N<br>I<br>R<br>E<br>V<br>I<br>L<br>D<br>O<br>R<br>O<br>F<br>N<br>A<br>S | |
| To prove that this remedy is at last found, any person troubled with LIVER COMPLAINT, in any of its forms, has but to try a bottle, and conviction is certain. | | |
| These gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease, effecting a radical cure. | | |
| BILIOUS ATTACKS are cured, AND WHAT IS BETTER, PREVENTED, by the occasional use of the LIVER INVIGORATOR. | | |
| One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring. | | |
| Only one dose taken before retiring prevents NIGHTMARE. | | |
| Only one dose taken at night, loosens the bowels gently, and cures COSTIVENESS. | | |
| One dose taken after each meal will cure DYSPEPSIA. | | |
| One dose of two teaspoonfuls will always relieve SICK HEADACHE. | | |
| One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure. | | |
| Only one dose immediately relieves CHOLIC, while | | |
| One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA. | | |
| Only one bottle is needed to throw out of the system the effects of medicine after a long sickness. | | |
| One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin. | | |
| One dose taken a short time before eating gives vigor to the appetite, and makes food digest well. | | |
| One dose often repeated cures CHRONIC DIARRHEA in its worst forms, while SUMMER and BOWEL complaints yield almost to the first dose. | | |
| One or two doses cures attacks caused by WORMS in Children; there is no surer, safer, or speedier remedy in the world, as it never fails. | | |
| A few bottles cures DROPSY, by exciting the absorbents. | | |
| We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all FEVERS of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues. | | |

ALL WHO USE IT ARE GIVING THEIR UNANIMOUS TESTIMONY IN ITS FAVOR.

MIX WATER IN THE MOUTH WITH THE INVIGORATOR, AND SWALLOW BOTH TOGETHER.

**THE LIVER INVIGORATOR**

IS A SCIENTIFIC MEDICAL DISCOVERY, and is daily working cures almost too great to believe. It cures as if by magic, even the first dose giving benefit, and seldom more than one bottle is required to cure any kind of LIVER complaint, from the worst Jaundice or Dyspepsia to a common Headache, all of which are the result of a DISEASED LIVER.

### IMPORTANT NOTICE

—TO—

MILLWRIGHTS AND OWNERS.

### The Excelsior Water Wheel Co.

ARE MANUFACTURING A NEW KIND of Water Wheel, patented 11th May, and 14th December, 1858, by J. H. Fairchild, of Vermont. It involves an entirely new principle of obtaining power, and of controlling the water, by which we obtain a greater maximum power than is afforded by any other wheel now in use. Some of the advantages of this wheel are:—

1st. We obtain the ENTIRE WEIGHT of the water, and have the advantage of the full head and fall, from water to water.

2d. It surpasses all other wheels in velocity and power.

3d. It is perfectly under the control of the workmen, either when used to drive a large or small amount of machinery, as the strength of the wheel is not diminished by reducing its motion, since it depends upon the WEIGHT of the column of water above the wheel, which always remains about the same.

4th. It occupies less space than any other wheel—is placed inside the flume, near the SURFACE of the water, and is never affected by frost.

5th. The wheel is very durable, being made of iron, and can be put in in any place and attached to Saw Mills, Grist Mills, and machinery of all kinds, with LESS expense than any other wheel. The velocity of the wheel is such that the expense of gearing up is avoided for nearly all purposes.

Together with the advantages above stated, we are ready to warrant the Wheel to possess a power equal to the following figures, for each foot fall of water:

| | | |
|---|---|---|
| 8 inch wheel | ........ | 52.100 horse-power. |
| 10½ " | ........ | 75.100 " |
| 12 " | ........ | 90.100 " |
| 13½ " | ........ | 1.31.100 " |
| 15 " | ........ | 1.55 " |
| 16½ " | ........ | 1.87.100 " |
| 18 " | ........ | 2.M.100 " |
| 19 " | ........ | 2.65.100 " |
| 20 " | ........ | 2.85.100 " |
| 22 " | ........ | 3.23.100 " |
| 24 " | ........ | 4.29.100 " |
| 26 " | ........ | 5.55.100 " |
| 28 " | ........ | 6.95.100 " |
| 50 " | ........ | 7.81.100 " |

Wheels of the above sizes make from 40 to 1000 revolutions per minute. When sold, are complete with gate, pully and shaft, so that the purchaser has only to place it in the flume, which can be done with less expense than any other wheel.

The Company have competent workmen, who will put them in any place in workman-like manner, at reasonable rates. The Wheels can be afforded at a less price than any other wheels now in use.

W. H. SCHROEDS, Sec'y, Troy, N. Y.

CERTIFICATES.

MIDDLETOWN, Ct., Dec. 1, 1858.

Dear Sir—In answer to your favor asking my opinion of the Fairchild Patent Water Wheel that you put into my factory for me, I take great pleasure in stating that it has exceeded my expectation. I took out a Breast Wheel 10 feet in diameter, by 9 feet buckets, and replaced it with one of "Fairchild's Patent" 15 inch Wheels, and it gives more power, with no greater amount of water, and the motion is as steady as that of a steam engine. It has also the advantage of being very cheap and durable.

It operates under a 9 feet head and fall, and carries with equal regularity and steadiness a greater or less amount of machinery, such as is necessary for the manufacturing of fire-arms, whereas an increase of machinery upon my old Wheels would materially lessen the speed.

It is without doubt the best Wheel I have ever used, and my experience in Water Wheels extends over a period of 25 years. Any one interested in Water Wheels will be convinced of its superiority (however skeptical) if he will take the trouble of calling at my factory and see its performance.

I am, yours, respectfully, EDWARD SAVAGE.

Mr. Savage writes me again under date of Jan. 6th 1859. The Wheel continues to perform entirely well, and I am more and more pleased with it. It has not caused us a moment's delay since you were here.

SHELDON, Franklin Co., Vt., June 29, 1858.

Dear Sir—I have one of Mr. Fairchild's wheels in operation at my Machine Shop, which I can recommend to the public with perfect confidence, as possessing all the advantages which are claimed for it. The wheel which I am using is twelve inches in diameter. It gives more power, and runs more steadily than the twelve feet Breast Wheel, which I have heretofore used, requiring less water under the same head and fall.

H. CARLISLE.

Many other testimonials from heavy eastern manufacturers may be seen at my office, where the public are invited to call and examine this wheel, and where they will at all times be kept on hand to supply the demand. An 18 INCH wheel is now running the Planing Mill and other Machinery necessary for the manufacture of Sash, Doors and Blinds at the manufactory of M. Y. King, Esq., (State Dam) Joliet, Ill., where any and all are invited to call and examine it under practical test, and a motion of 200 revolutions per minute. For further particulars please address

MOORE'S

Thirty Dollar, Double Lock Stitch,

### FAMILY SEWING MACHINE!!

SECURED BY RECENT LETTERS PATENT.

THE ADVENT OF THIS NEW, MOST useful and incomparable Machine is destined to create a great and decided change in public opinion upon the subject of CHEAP SEWING MACHINES.

We confidently assert and can conclusively prove, by a *practical demonstration*, that this Machine embraces in its construction the best combination of SCIENTIFIC PRINCIPLES to be found in any Sewing Machine now before the public, *regardless of price!* With an eye quick to detect the deficiencies and imperfections of other Machines, Mr. Moore has sought to remedy them all; and we feel assured a critical examination of this beautiful piece of machinery, will at once establish it as the *only reliable cheap* Machine in the country, and *far preferable* to any *high priced* Machine now sold. It sews directly from two spools, (as bought at the store) without re-winding; one above the Machine, and one underneath, and makes the *strongest, most elastic* and *durable* stitch, made either by hand or machinery. It *cannot be ripped*, though the cloth is *cut entirely at every half inch*. The stitch possesses the same elasticity on the bias as upon the goods, thereby making it particularly applicable for articles that require washing and ironing. The machinery for feeding the cloth is unlike all others, and is without doubt, the best constructed.

The breaking of needles, a common and expensive fault with most other Machines, is entirely remedied in this, with proper care one needle will last for months. The entire Machine is simple in construction, and made in every respect perfect and durable. Unlike other Machines, there is no danger of *soiling* the article sewed by oil, as none is used on top of the Machine. It is also large enough for every description of work, there being eight inches, clear space in length, by four in height, between the needle and end of the Machine. In beauty of design and mechanical construction, it has no equal in the country; all the movements being positive, and the friction light and easy, so that the probability of its getting out of order is... It stands entirely upon its own merits, and needs no better reference than its own good works to convince all who see it, that it is the most valuable and economical invention of the age.

It is our intention to sell a small portion of the territory by States or Counties, for a suitable and fair basis. As a safe and highly remunerative investment it has no equal. Extensive arrangements have been made for the manufacture of these Machines, and the *large profits on a small business*, commend the enterprise to the attention of all who wish to make *an independent fortune*. We will send a sample Machine, securely boxed by express or otherwise, to any address upon receipt of Thirty Dollars. *Each Machine is warranted.* Send for a descriptive circular giving full particulars. ### THE GREATEST MEDICAL DISCOVERY OF THE AGE.

MR. KENNEDY, OF ROXBURY, HAS discovered in one of our common pasture weeds, a remedy that cures

EVERY KIND OF HUMOR

FROM

THE WORST SCROFULA DOWN TO A COMMON PIMPLE.

He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three or five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three or four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother,

NURSING SORE MOUTH,

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to your husband and household.

In the more advanced stages of

CANKER

it extends to the stomach, ensuing

DYSPEPSIA

which is nothing but canker on the stomach; then the intestines and

KIDNEYS

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follows a train of diseases which the Medical Discovery is peculiarly adapted to

CURE;

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "an ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly, DONALD KENNEDY.

For sale by all Druggists in Milwaukee, and by Druggists generally throughout the Western States. Price $1,00 per bottle. seph155d&w
